

Title: Dungeon of Dark

Game engine: Unity

Genre: Puzzle, RPG, logic, dark dungeon. Free-to-play.

Platform: iOS (iPhone, iPad), Android.

Web page: layergames.com/dark.

DESCRIPTION

Puzzle game in the world of dark fantasy. Go through dungeon.

The dungeon consists of several floors, with different enemies, and objects.

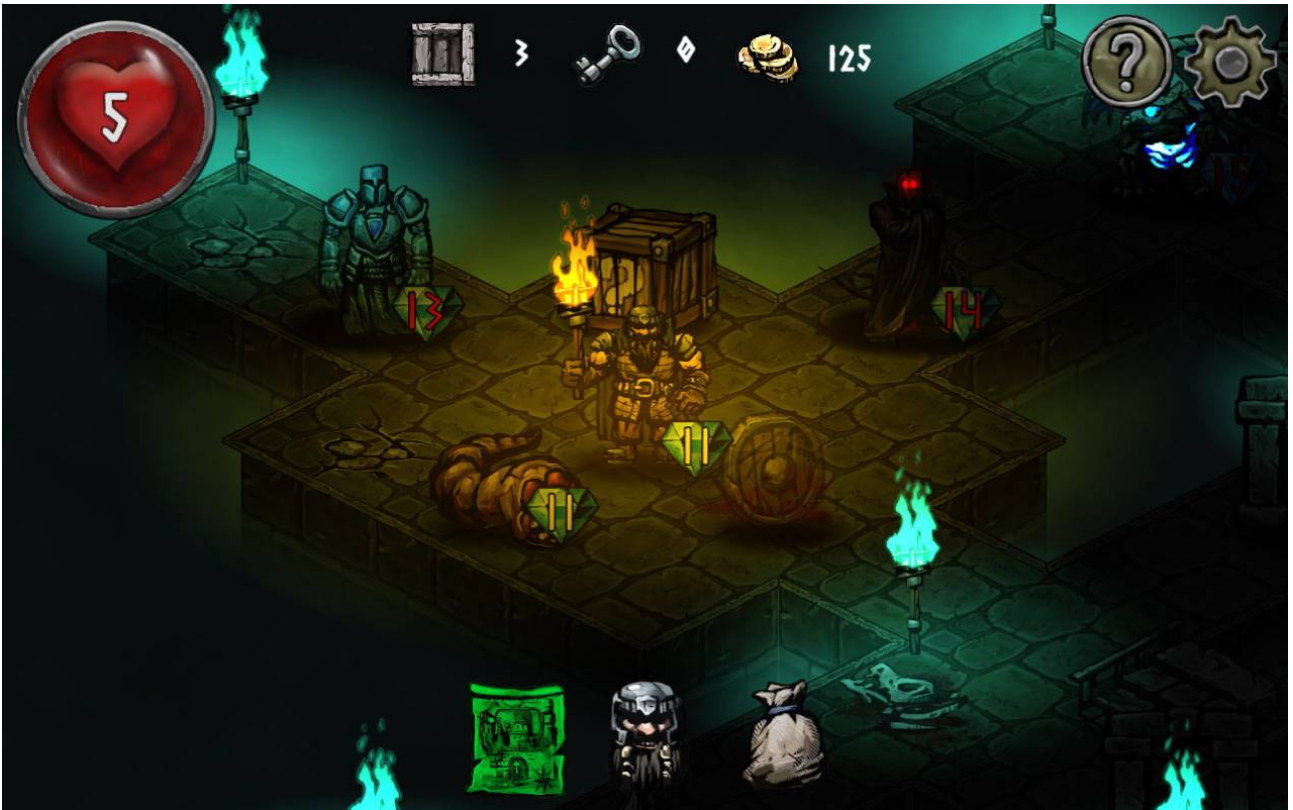

Puzzle game mode consisting from 3x3 field.

Move the character, use objects, interact with surrounding objects, defeat opponents and bosses. The gameplay is somewhat similar to the game 1024 and collectible card games.

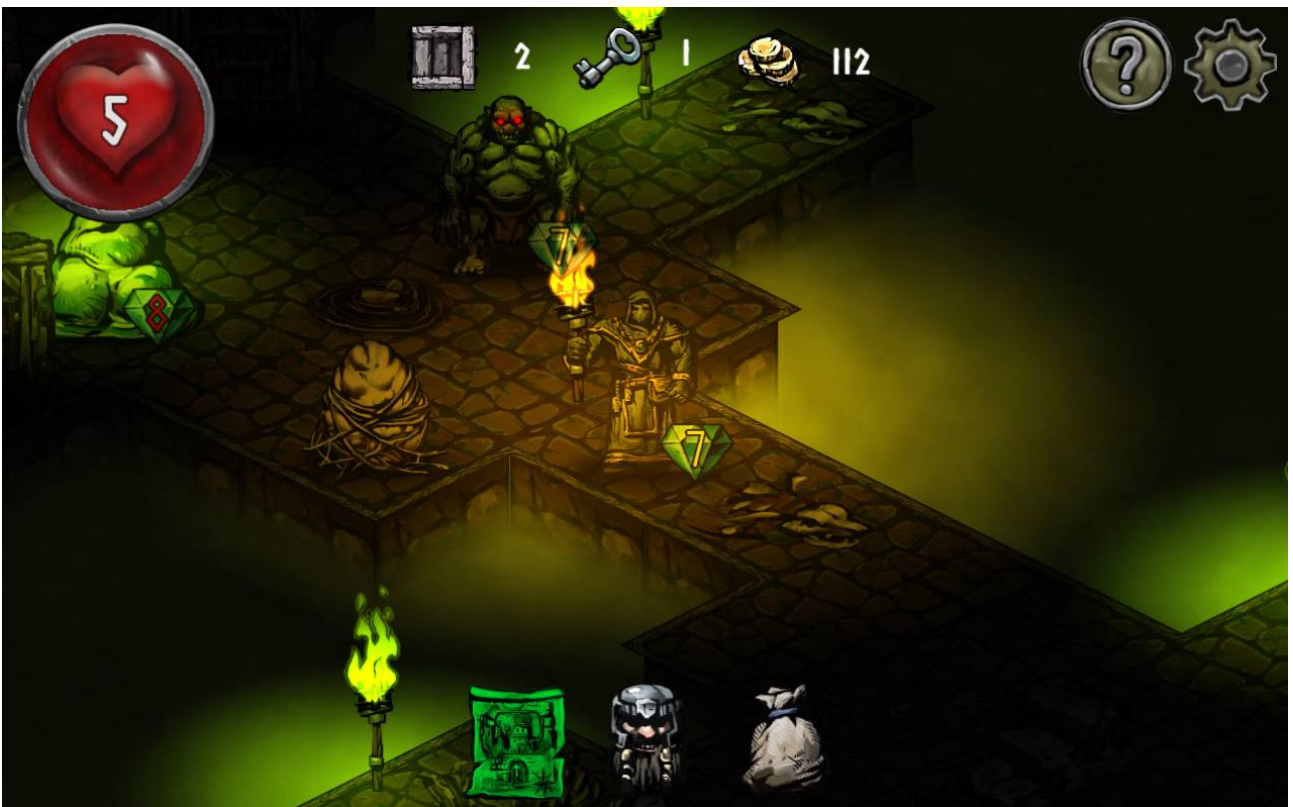

Game content: Now the game has 3 floors, 5–6 types of basic levels on each floor, 2 characters with their own set of items.

Similar games: Some mechanics were taken from different games: Look, your look!, Hearthstone, Dungeon crawl stone soup, 1024, Book of Demons, Heroes 3, but exactly the same analogues we have not met.
